

## Products Shelf Life Guidelines

Dear valued customer,

As regards our heat shrink tubing products shelf life and storage conditions, we have our tubing items and details for your reference as follows.

No.	Tubing	Model	Storage Condition	Storage Requirement		Shelf Life	Remark	
1	Single Wall	CB-HFT CYG-ZHP CYG-BT(HF)	Room temperature not exceeding 50°C, ventilated, cool and dry place (preferably (0%~90%) RH), avoid contact with acid, alkali, water and corrosive gas	≤50KG	≤2.0M	5 Years	Separate by rack or pallet	
2	Dual Wall	CB-DWT CB-DWT(ZHP) CYG-M/HWTA			≤1.2M	5 Years		
3	PVC Tubing	PVC			≤2.0M	3 Years		
4	Teflon Tubing	CB-TT	Room temperature, ventilated, cool and dry place, avoid contact with acid, alkali, water and corrosive gas	≤50KG	≤1.6 M	3 Years		
5	Fiberglass Tubing	CB-SGS CB-SRS	Room temperature not exceeding 50°C, ventilated, cool and dry place (preferably (0%~90%) RH), avoid contact with acid, alkali, water and corrosive gas	≤50KG	≤1.2 M	2 Years		Separate by rack or pallet
6	Silicone Rubber Tubing	CB-SRT CB-SRTN	Room temperature not exceeding 50°C, ventilated, cool and dry place (preferably (0%~90%) RH), avoid contact with acid, alkali, water and corrosive gas	≤25KG	≤1.2 M	5 Years		Separate by rack or pallet
